4th, Update, 2013 May 28

Introduction:

Church Boys Foundation and the people in Dung Dunge (Dung Dunge School Management Board) have started the school for Children from play group to class 3 in Dung Dunge. We started the School for those children who are unable to cross the river and walk for two hours to get to the School.

- **Overview and brief**

- Land Transfer and Ownership

Mr. Santosh Rai of Dungdunge has donated the land for the purpose of the School. Land area of the School is 5 katha which is approximately 18225 sq. ft.

Land is transferred to Dungdunge School on 2010 January 1.

- **Dung Dunge, Its Name:** Village of Dung Dunge was inhabited in 1970 when it was full thick jungle. People migrated there, cut the trees and made plain worthy to cultivate it. Many witches use to beat drum at night, sounding DUNG DUNG DUNG DUNG. So the name came beating the drum, Dung Dunge.

Children in Dung Dunge Play game in the School Pitch

Area :

Location: The village Dungdunge is located in ward no. of 9 of Mahamai Village Development Committee (VDC) which is south of the Ilam District. This village is isolated by transportation, and only means to reach there is through crossing the River in dry season and by walking through the mountain jungle in other season when the river is high. Dungdunge is covered by the Jungle in the south and west and by River in the North and East. Dungdunge has 27 houses and 23 households at the neighboring village.

Market: Dungdunge is not connected with any market. Nearest big shopping market from Dungdunge is Surunga which is 4 hour walk for local people. Groceries items such as salt, beans, oil, sugar, candle or kerosene and clothes and other items can be purchased from little town in Domukha which is at the entrance of the point to the mountain.

Electricity: Dungdunge does not have electricity and gas. They burn kerosene lamp to light up the house at the night and use firewood to cook the food.

Profession: Incoming sources of the people of Dung Dunge are limited. They can't grow Rice because it needs much water. Rice is the Nepalese favorite. They plant only the corn. Harvest they plant hardly sustains them for 6 month. And then they would need to look for other source to feed their family.

School in Dung Dunge: Dungdunge does not have School. Nearest High school from Dungdunge is in Bisnetar in the north which is two hours walk through the Jungle. They can use River route for short cut but is not possible at summer. Students they put their life in risk when crossing the River with Wheel's tube to cross and get to the school. The river has claimed the life of many when attempting to cross the river.

- Why is School needed?
 - Because children can't cross the River, School is needed nearby their house and village so that they don't have to put their life in risk to get education.
 - Because of their Age, School is needed because small child of age five or six years can't walk two hours to get to the School in Bisnetar or Kalkatte. When children spend 6-8 hours in the school without their parent sending them lunch box, they are crying because of hunger and thirst, tired by walking two hours and exhausted.
 - Because of Poverty, their parents can't send them to school in the town simply because they can't afford it.
- What are the needs the school has?

- Playground and fun park,
- Toilet Construction,
- Water Reservoir Tank,
- Doors and Windows,
- Aluminum Roof,
- Store Room,
- Garden and Nursery,
- Furniture,
- Clothes and Uniforms,
- Books text

- School Finance
 1. School will be run through the help of donor who are the partners of the School.
 2. Guardian will give whatever they can, including financial contribution

as a fee for the student, corn, rice, potatoes and whatever they can afford.

3. Support from other sources.

➤ Snacks for the Students, since school is accepting play group we would like to give nutritious food in the school as a snacks. So that little children don't have to sit and learn hungry in the class.

➤ Salary,

Teachers will get a monthly payment for their contribution. Initially, there will be two teachers. And they will be paid 7500 Rupees (equivalent to 100 \$) per month.

➤ Helper, A volunteer will be appointed who would cook and help children get clean their feet and hand. He/She will also get a financial gift at the end of the contract.

➤ Guardianship,

Dungdunge School Management Board and parents of the

School children will fully take care of the properties of the school.

➤ Visit, Donors partners people and organization can make visit to the School.

• We need Partners

➤ Financial Partner is needed to run this school. Without the help of financial partner this school will not be able to exist.

➤ Materials Partners

School needs materials partner who would donate books, copies, clothes and bags.

➤ Volunteers

Volunteers are needed to help the students get clean, draw water, clean the pitch, and for other works.

2. Vice President : Pradip Rai
3. General Secretary : Mr. Dik Bahadur Rai
4. Treasurer : Mrs. Santoshi Rai
5. Members : Mr. Salman Rai
6. Members : Mr. Pradip Rai
7. Members : Mr. Jit Bahadur Rai
8. Members : Mr. Nabin Rai
9. Members : Mr. Maita Bahadur Rai

• What after Primary School

- Students can join neighbor school. Certificate will be issued for each student as they leave the Dungdunge School for their further study.

- We can still upgrade the School so that students who are passed do not have to look other school.
- Children Education in the Bible
 - What does the Bible says about Children
 - ❖ Bible says '*Train up a child the way he should grow and when he is old he will not forget.*' Proverbs 22: 6.
 - Importance of Education
 1. Education is light so all must get privilege of attending school.
 2. Education is development. When people get education they know how to develop their place and country. Education makes life easier.
